

**WALKER COUNTY ALABAMA
PERMIT FOR WORK ON COUNTY RIGHT-OF-WAY**

Name: _____ Date: _____

Address: _____ Phone # _____

Emergency # (For Damage) _____ Locator # _____

Section _____ Township _____ Range _____

Description of Proposed Work: _____

Authorization

In making this request, I, the undersigned, do agree to perform the above described work in keeping with policies established by the Walker County, in such a way to leave county roads and right-of-way in a condition as good as before said work was commenced, putting special emphasis on the following:

1. Pleasing appearance
2. Proper Drainage
3. Proper Erosion Control

It is understood that Walker County will not be responsible for Conflict and Utility due to **road maintenance or road construction. No plowing will be allowed along any paved road.** ALL CABLE will be placed behind ditch line on paved roads except when specified by the Walker County Engineer. All utilities must provide the Emergency Number above and must be a part of a locator service or have location in house, with number provided above. All sewer lines must be green PVC with the word sewer printed on it, with locator wire, locator tape 1 foot above, and have fiber glass markers placed throughout the line. It is understood and agreed by the undersigned party that if County Roads and County Right-of-Ways are not restored in as good condition as before said work was commenced, that the County is authorized to have corrections made at the expense of the utility company involved.
